+++MR Safe

Not made with natural rubber latex.

Store between 20 - 25°C (68 - 77°F).

Arrow International provides the enclosed medication label(s) for your convenience. Please ensure that these labels are applied to the correct syringe and corresponding medication.

Contraindications: The Pressure Injectable Arrowg+ard Blue Advance antimicrobial/antithrombogenic catheter is contraindicated:

· for patients with known hypersensitivity to chlorhexidine

• in the presence of device related infection in the intended insertion vessel or catheter pathway

· in the presence of thrombosis in the intended insertion vessel or catheter pathway

Pink (18 Ga.) Blue (19 Ga.) White (19 Ga.) 0.70 990 5440 6 0.52 240 1930 not rated 0.49 270 2070 not rated

* Priming volumes are approximate and are done without accessories.

+ Flow rate values are approximate and are determined using deionized water at 100 cm head height.

the pump flow rates are determined at maximum pump pressure of 10 psig and represent approximate flow capabilities.

** Pressure injection flow rates are determined at the injector pressure setting of 300 psi maximum using media of 11.8 centipoise viscosity, with 152 cm pressure tubing.
